# THE RAG PICKER

VOLUME VII, ISSUE NO. 1

JANUARY-FEBRUARY 1972

THE OFFICIAL PUBLICATION OF

THE PAPER MONEY COLLECTORS OF MICHIGAN

### President's Message

The dues increased, voted on by our members at the last meeting of the Paper Money Collectors of Michigan in Detroit is really paying off. The P.M.C.M. is on the move forward. That is: our membership is increasing and there is a greater interest in paper money.

The Editor, Ralph P. Werve, has asked me to announce that beginning with our January-February issue we will be on a 6 issues a year basis. The added interest and the dues increase makes this possible. I am sure you are all interested to learn this. We will do our best to be of service to you always.

Our next official meeting will be held at Lansing, Mich. in the Olds Hotel during the Spring Convention of the Michigan State Numismatic Society on April the 8th and 9th. The tentative time of the P.M.C.M. meeting is set at 3:00 P M. on Saturday, the 8th.

There will be a short business meeting, and as now planned, an interesting program on paper money immediately following the business session. We hope that many of our members will be in attendance. We all benefit as we become better acquainted with one another.

Many of our members have suggested that we hold more than two meetings a year. Do you have any thoughts along this line? Take your ideas to the convention; if by chance you are unable to attend, mail us your suggestion or criticism, they will receive careful consideration. Please circle your calendar April 8th, for we are looking forward to meeting you all in Lansing. Bring a fellow collector with you.

Have you signed up a new member or invited a fellow collector to join us since our last meeting? Please bear this in mind. The cost is not great and the benefits are many. We feel that you will be doing a fellow collector a favor by introducing him to P.M.C.M. and "The Rag Picker." They will thank you for it.

P. H. (Jim) FRANS, President

#### FEDERAL RESERVE NOTE EXCHANGE

Chairman: I. L. Gittleman, PMCM #C165 P.O. Box 164, Monroe, Mich. 48161

A big welcome to three new members to our list from Districts A, B and F. We all hope their stay will be long and rewarding.

A few problems have come up the last few months, which I think should have the attention of all members on the list. The first being that of not letting your fellow member know where he stands after he has sent notes to you for trade. Have received four letters from members that have had this trouble, some were about the same member. They complained about not getting their notes back nor even getting acknowledgment that notes were received. One case in point even received back return receipt, but still haven't received any acknowledgment from member he had sent notes to after almost a month wait.

I realize illness can strike any one and I hate to think of my state if I were unable to take care of my mail. This can not be helped, but one has to wonder, if this is always the case. Let's all try and do what we would want others to do for us. If unable to complete trade at present, drop the party a line and let him know what your intentions are.

Cur editor has told me some members on our list had not paid their 1971 dues. This means they did not receive the Rag Picker during 1971. To remain on this list, all 1972 dues must be paid before the Rag Picker is issued. Those not doing so will be removed from this list.

THE COURTEOUS THING TO DO WHEN SEEKING TRADE OR ADVICE IS TO ALWAYS INCLUDE A STAMPED SELF ADDRESSED ENVELOPE.

THE FOLLOWING MEMBERS WILL TRADE CURRENT FRN'S AT FACE PLUS STAMPED, SELF ADDRESSED ENVELOPE.

HERE'S A GOOD ONE FOR OUR RAG PICKER.
Anthony Nicolazzo, 22256 Marine, East Detroit, Michigan #1294

In my leisure time I also collect antiques and old stuff, such as books dated in 1875 to the fifties, and newspapers and magazines. I found this one from Harper's, dated October, 1928.

MONEY IS NO PROBLEM

MONEY IS NO PROBLEM
The solution of the personal money question lies neither in saving nor in not saving; the true solution is to forget money utterly and to concentrate all one's thought and energy upon the wise spending of time upon that chosen work, which seems interesting and important regardless of reward.

If the spending of time is handled with common sense, the smaller problem - the money question - which is inescapably involved in it, will be settled at the same moment. Any simpleton can save up his dollars, but the wisest of men can not save up opportunities - they must be used as they come.

Currency Contract Set For The Merc \_ Oakland Tribune, Jan. 18, 1972.

It was recently announced by the Chicago Mercantile Exchange (CME) approving organization of a new future exchange for the purpose of trading foreign currency.

At the same time, West Coast Commodity Exchange, Los Angeles, they would start trading diamond futures. This the same concern which recently began trading gold coins, but were halted by the U.S. government. They now state they expect restrictions will be relaxed and they will be permitted to resume trading in gold coins.

TOURISTS GET MONEY BREAK FROM EGYPT Oakland Tribune Jan, 19, 172.

It would appear they still like U.S. dollars in Egypt. It was announced the government will give visitors a 35% premium when they exchange hard currencies for Egyptian pounds.

SAD STORY ABOUT COUPLE WHO DID NOT TRUST BANKS. Kenneth Anderson #938, Akron, Ohio.

The following is a story from the Akron Beacon Journal, Akron, Ohio on January 5th. I would like to relate parts of this story to our members of PMCM.

Warnings, please don't do it and what have you been told all these years about keeping money in our homes. We seem to pay no attention and continue to forget the fact that banks are the only safe place for our collections and savings.

On January 4, 1972, a husband and wife were spending an evening at home in front of the TV set. About 9:30 p.m., a knock was heard at the front door. The husband went to the door opened it and was faced by three masked gun men. They forced their way into the house and into a bedroom. There they told the husband to open the safe. In twenty-minutes they had a total of \$50,000.00.

The husband had \$3,000.00 in his pocket, his wife had a 3½ carat diamond ring on her finger. The safe had \$5,000.00 in savings bonds, another diamond ring, \$37,000.00 in cash - ranging from \$1,000.00 bills to small change and two hand guns.

The owner said that he always carries a gun (he had one in his belt at the time) and had a total of eighteen guns in his house, plus two dogs.

The wife said that he just didn't trust banks. He had worked thirtysix years at Firestone Tire Company and she had worked twenty-nine years at Goodrich Tire Company to save all this money. They just didn't trust banks!

As the masked men walked out on them, stopped and said, "We don't want you to be broke". He then stuffed a \$500.00 note in the husband's pocket.

NOTE: Eighteen guns, two dogs and a safe, protection for \$50,000.00? Not at all!

CAMBODIAN MONEY IN REVALUATION - Oakland Tribune, Jan. 17, 1972. PHNOM PENH.

Cambodia is revalueing its currency. The rate to be from 130 to the dollar to 120 to the dollar. This is supposed to stimulate the import of more goods from the USA.

CHURCH AND STATE CASE FADES OUT. Washington, D.C. The Supreme Court made no decision on the tax exempt status of property owned by churches but used rented or leased for profit making business, not associated with spiritual endeavor. It was revealed at the hearing such property owned by Protestant churches is estimated at four billion dollars, Catholic Churches, twelve billion dollars.

#### OLD HICKORY'S TWENTY DOLLAR BILL

If you are fortunate to have a \$20 FRN handy, you are looking at the portrait of President (Alew Jackson (Old Hickory)). Many historians agree no other man had a sater influence on the path this country was to follow. Up to his election most of our presidents and high political leaders came from the same group living in the area of the original colonies. They were all well educated, men of considerable means, wives and families with strong social background. Jackson was the first president born on the other side of the tracks in a log cabin. The year and place disputed, but generally given as March 15, 1767, in Waxhaw Settlement, South Carolina. Orphaned, he served in the Revolutionary War at the age of fourteen; captured by the British; and was struck by the sword of an English officer, because he refused to shine his boots. This likely accounts for his intense hate of England, which persisted throughout his career.

Moving to the Hermitage in Tennessee, he was active in that state's politics, serving for six years as judge of the Superior Court. He, also at one time a Congressman, and U.S. Senator. As a Major General in the state militia he defeated the Cree Indians, who had allied themselves with the British at Horseshoe Bend, Alabama. His great victory at New Orleans, during the war of 1812 made him the hero of the day. In 1818 he was ordered to punish the Seminole Indians for their border raids. He captured Pensacola and hanged two British subjects, claiming they had incited the raids. This involved the United States in serious trouble with Both Spain and England.

In 1824, he received a plurality of votes in his first bid for the presidency. A majority was required and the House of Representatives decided in favor of John Quincy Adams. This was due largely to the support of Adams by Henry Clay. In 1828, he easily defeated Adams and re-elected in 1832. He was urged to run for a third term in 1836 and likely could have won. He chose, instead, to put his Vice President Martin Van Buren into the White House. Returning to the Hermitage, his voice was heard and respected until his death on June 8, 1845 (March 15th, his birthday is a legal holiday in Tenn.).

He was accused by the old establishment of being a dangerous upstart who brought "rabble" into the White House. He forced the closing of the United States Bank by depositing Federal funds in other state banks. (Some say this was partly due to the fact the U.S. bank was patterned after the Bank of England). He killed congressional caucus for the nomination of presidential candidates, substituting the convention system, much as in use today. His slogan, "Let the People Rule" was no idle one. He continually strove to assure the so called common man his voice would be heard. Also, any man could be president. The latter influenced many elections that followed. One of a condidate's strongest assets was birth in a log cabin with humble surroundings. He expanded land rights, especially in the West and introduced many plans to improve the lot of the working man.

Continued on page 11

#### OLD HICKORY'S TWENTY DOLLAR BILL (Contd.):

It is ironical to note he was a slave holder at the Hermitage and research does not disclose when he finally stopped this practice. He sensed coming industrialization and helped establish the textile industry, where it prospered for over a century.

Mr. Jackson married Mrs. Roberts in Natchez, Mississippi in 1791. She thought she was divorced, but it was revealed her former husband, Captain Roberts had failed to so act and did not do so until 1793, when the Jacksons were formally re-married, However, the slurs through the years with accusations of bigamy, adultry, etc. so dampered her spirits, she died in 1828, shortly after the election, so never lived in the White House. They had no children. Often incensed at these charges, Mr. Jackson once challenged a detractor over one hundred duels and brawls. Thus, he had the dubious distinction of being the first president to be the object of an assassination attempt. It has been written this also accounts for the resignation of his Vice President, Mr. John C. Calhoun. The only vice president I believe to resign. Mr. Calhoun later became a senator.

In the first series of the large (1914-18) Federal Reserve Notes, the portraits were: \$5 Lincoln, \$10 Jackson, \$20 Cleveland. In 1928, when the small notes came it was \$ Lincoln, \$10 Hamilton, \$20 Jackson. Maybe some of our members can supply the why and wherefore of these changes.

Following the election of Mr. Truman as president in 1948 (see note below) extensive repairs and alterations were made in the White House. Consequently, a change in the reverse design in the showing additional shrubbery and balcony, "The White House". These changes took place in the 1934C block or scries and some of these notes may still be found in circulation.

President Truman lived at the Blair House during the repairs. November 1, 1950, an attempt assassination was made by two Puertan nationalists. They tried to force they way past the guards. One, Crisello Terresola, was killed by these guards, one of the latter, Private Leslie Coffet was fatally shot. The second Nationalist, Oscar Collazo, was tried March 7, 1951, convicted of murder and sentenced to death. President Truman commuted sentence to life imprisonment, July 24, 1952.

(Editor"s Note) You hear and see the term, President Truman was reelected in 1948. Such is not the case. He, as Vice President, assumed the higher office at the death of Franklin D. Roosevelt. He ran for and was elected President in 1948, the one and only time. He declined to run for a second term. The same is true of President Lyndon Johnson, who ran and was elected in 1964. He also refused to run for a second term. You man recall Mr. Johnson's dramatic announcement in a TV broadcast.

#### 6TH DISTRICT PICKINS 1

Dear Fellow Rag Pickers: I have been a member of the PMCM for over two years and I greatly enjoy receiving the Rag Picker. I read Ed. Zegers last letter in the Rag" and I like his idea of someone from each Federal Reserve District sending in the lastest information from their district. If someone would write from each District, the FRN collector could be better informed on what notes are available.

as I'm sure you know the Atlanta District is a large district, so what I say may be different from what is available on the Eastern side of the District.

Here in Baton Rouge the F. A. Connally notes are still being distributed. I haven't been able to get from any of the banks FB or F\* Connally notes. The Kabis stars are out here, but they are very hard to come across. Every one seems to want this note. As soon as I get any I trade them all off.

Any one who wants CU notes from the 6th District, just sent CU notes of equal value and a SASE to Michael Nanney, 1086 Woodhaven Drive, Baton Rouge, La. 70815, PMCM #1094.

# MONEY IS MORE THAN MONEY By Al. Hodson, 373 Broadway, Winona, Minn. 55987

Too many people are concerned about making money in collecting paper currency, holding and selling at a profit, so to speak. Do golfers think his clubs, ball, etc. will be worth more in a few years or begrudge the cost of the game. The same in bowling and other hobbies. Second hand bowling balls aren't so hot, are they?

When you put away a few notes such as current \$1 FRN's, you are never out anything, because they will never be worth less than face. You have the fun of collecting and it is surprising how fast your little nest eggs increase in numbers. If you are compelled to cash in and do receive more than face, it is just a nice bonus. Think of all the folks, especially oldsters who take so much pride in their hobby, during their twilight years. Any doctor will tell you of theof the actual thereapoutic value to the collector.

"Happy is the man, who has this hobby for he lives in two different lives."

"OUR UNCLE SAM"

By Paul D. Lyons, PMCM #936

1316 Birdie St., Burlington, Iowa

Although our primary interests is the collecting of currency it seemed fitting that I mention the story of a man who we all know, and yet few really do. Weaknow him from the many pictures, conceived by artists as to what he should represent. He is, "Uncle Sam" to us, but in real life he is Samuel Wilson.

The name Uncle Sam we have known for all our lives. We picture the imaginary figure of a person as a tall, lean man with stars on his hat and the stripes of the flag on his trousers and some times pointing a finger at the viewer. However, some may not realize that this tall, bewhiskered person, who has become a national emblem actually was a real character. His name was Samuel Wilson, born September 13, 1766. He left home at the age of fourteen. At this young age, he was a hard worker. When he was twenty three, he and his brother headed West to Troy, New York from New Hampshire. There, in Troy he settled down. He wasn't afraid of hard work. He was a jack of all trades. He became well liked for his honesty and good common sense. As time went along Sam Wilson and his brother got into the meat packing business. In this venture, he was led to enduring fame.

At the time of the War of 1812, Troy was an important point for assembling food and munitions for the American Troops and Sam was a prominent citizen of the town. Sam Wilson and his brother became the chief meat suppliers for the American Army in that region. Because of the good quality of their products and Sam's well known integrity, he was appointed Federal Inspector of Provisions for the Army of the New York and New Jersey areas.

One of the chief customers of this meat firm was Elbert Anderson, an Army contractor, who always insisted that his purchases be shipped in barrels marked, E.A.U.S.

On October 3, 1812, several important men visited the meat packing plant in Troy and being curious asked what the letters E.A.U.S. stood for. A worker told them the E.A. stood for Elbert Anderson and that the U.S. was short for "Uncle Sam" Wilson although it actually meant the United States. This answer amused the rest of the workers and so the story soon spread.

Another report is that Sam Wilson branded each cask of pork or boof with the large letters, U.S. One day a driver was loading some of the containers of meat for a nearby military post and he asked the meaning of the initials. Then, the brother of Sam Wilson replied, "Uncle Sam's Beef". Uncle Sam who? Why the Uncle Sam Wilson, the fellow, who is giving the army it's food.

That day, when the driver delived his supplies, he told the troops what Ebenezer had said. At once the soldiers began to call their meat and every thing else from canteens to cannon balls, Uncle Sam's. They declared they were in Uncle Sam's Army and payroll. The term

"OUR UNGLE SAM" (Contd.):

spread and soon in Washington, C.D. employees of the Federal Government were said to be working for Uncle Sam.

The Troy, Albany District was the first to use the expression. In 1813, in a Troy newspaper and during the political period in Upper New York State.

Since the man, "Sam Wilson" was so popular in his community and seemed to epitomize the plain American - honest, self reliant, and devoted to his Country - the idea caught on rapidly. By the close of the War of 1812, his nickname had come to symbolize the National character of the government. Like the expression G.I. in World War II. As you may know, the letters G.I. meant General Issue.

Cartoonist and artists of the early 1800's pictured Sam Wilson . Uncle Sam as not wearing a beard. By 1862 he was given a beard. There have been many pictures which portray this Sam Wilson as a National symbol. He lived in Troy, New York and was buried there in Dakwood Cemetary. Died July 31, 1854. A plaque on a marble shaft marks his grave.

In 1961 Congress adopted a resolution saluting Uncle Sam Wilson as the progenitor of the American National symbol.

It is said of Sam Wilson, that he was uncle or great uncle to more than one hundred nephews and nieces, although he left few direct descendants.

BRIGHT BRITISH CURRENCY ISSUED. London. The Bank of England has issued new five pound notes tinted with blue, gold, red and multicolored patterns. The old notes were a sedate blue. The new ones are a part of a series of historical scens, some of which might rile the French. The notes carry the portrait of the Duke of Wellington, who beat Napoleon at Waterloo.

About two months ago I had a most exciting and unique experience. It started just as any day in November, but then after school I decided to go to the bank. The previous day I had received several nice notes I had purchased and I wanted to put them in my safety deposit box. I took the records of my collection along too, because I wanted to take an inventory on a section of my collection in which I had found an error in my record keeping.

Any way, I want into the vault and put in my new notes and I started to check my notes in the other section of my collection. After about forty-five minutes, I was through so I closed up my box and gathered up my papers. As I turned the corner of the vault on my way to leave I saw to my complete surprise the vault door was closed!! I walked up to it and I could see the big steel bars locked in place and all the little clocks in the door. I stepped back for a moment to consider the possibilities. My first thought was I was going to have to spend the night in the vault. With such a great thought in my mind, I began to try to think of what I was going to do. I considered knocking on the door, but I quickly ruled this out, because they would never be able to hear me through the thick door. I will not bore you with all my other brilliant?? ideas on how to excape but I couldn't impress on you how quickly the human mind developes hundreds of great?? escapes any criminal would pay thousands to know of.

I, then notice the telephone that had been right next to me during all this time. I quickly dialed 0 for the operator, since I didn't know the bank's number. I was trying to hurry, because it was getting close to the bank's closing hour. The operator answered and I asked for the bank's number. Then she said Yep! You guessed it! I would have to call directory assistance. I dialed directory assistance and another lady answered. I quickly explained my plight and she started laughing. Then, first thing she did was to get another operator and tell her about the funny thing some man had gotten himself into. Then I heard her talking to the president of the bank and then the president of the branch of the bank whose vault I was locked in. All these people were chattering on the line while I patiently sat and listened trying to figure out what was going on. Then I heard a click and the door opened to the vault and there stood a very embarrassed and shook up Bank President.

Now every time I go to the bank some one says, "Hey, aren't you the one who got locked in the vault?" or some thing of that nature. The employees really like me because now they have some thing to rib the boss about.

The world's currency most difficult to counterfeit is said to be the Japanese. Believe it is the special paper.

New York: In the last five years, the trend has been for funeral homes to consolidate into chains, which means that fewer morticians can look forward to running their own business. Service Corporation, International, for example, owns ninety-five funeral homes and is listed on the New York Stock Exchange.

You know the pyramid on the back of the \$1 bill? If you can count its steps, your eye sight is fine. There are thirteen.

Recently, Mr. A. Kosoff offered paper currency from the Julian S. Marks collection. In this collection offered at mail auction was a \$10 1933 silver certificate described as follows: A 1933 \$10 silver certificate accompanied by three pieces of correspondence, one of which is most significant: From William W. Durbin, Register, United States Treasury to Mr. B. J. Lazar, March 6, 1935, who had requested a 1933 \$10 silver certificate: (Quote) I am sorry that there are none to be had, because there was some mistake in the only ones that were printed and these were ordered destroyed.

As we all know, several catalogs show 1933 \$10 silver certificates. Therefore, call on good Rag Picker, Martin Vink, Rev. Hutchans, John Morris, all of who likely possess knowledge of the number of these notes issued and what they are worth. How about an article for the paper telling about their history. Many collectors of \$10 silver certificates lack this note to complete their book, so to speak.

BANK IS ROBBED' -- By Phone. San Francisco Chronicle, 12-4-1971.

A Con, artist, with a smooth telephone manner talked a bank gouth of \$8040.

The arranged for the move; to be delivered to a series of businesses before he finally picked it up and walked away with it, thanks to a lot of trusting people. lot of trusting people.

The man called the downtown Barnett Bank in Jacksonville, Fla. and

identified himself as an executive for a local firm, a bank spokesman

"He knew the routine of our bank down to the first names of people who work in sensitive areas", the spokesman said.

The caller asked that \$8040 in small bills be withdrawn from the company account, and delivered by armored car to the main office of the

St. Regis Paper Co., for Christmas bonuses.

By the time the money reached the office, the banker said, the man had already called the receptionist and identifying himself as an executive with another firm asked her to give the money to a cab

The cab driver delivered it to a restaurant cashier who later handed it over to a man who appeared at the height of the lunch hour rush. It was the only time the caller was seen; he had manipulated everyone else by telephone.

The banker said, "We've been engaged in a series of maneuvers today

### CHANGEOVER PAIRS By Chuck O'Donnell

A great deal of interest has been shown by paper money collectors almost since the beginning (1928) of our current size notes in CHANGEOVER and so called CHANGEOVER pairs.

Many, many articles have appeared, not only in RAGPICKER, but in several other publications as well. Perhaps the most notable of these by the acknowledged authority in this area - R.E. (Bob) Wheeler of Detroit, Michigan appeared in the January 1967 issue of RAGPICKER. While a few might quarrel with Bob's definition of a change-over pair - I'm sure the great majority of collectors will agree withBob, who defines a changeover pair as "a pair of notes of the same denomination and type changing from one series to another and having consecutive serial numbers". Please observe that this definition includes those pairs that have INVERSE serial numbers - i.e. the later series has the lower serial number.

An obvious question now then is "how does such a thing happen"? How is it possible for several sets - pairs of DIFFERENT SERIES of the same type - and - and same denomination to get numbered consecutively. The Bureau of Engraving and Printing answered Bob's query in this way - "There always a mixture of outgoing and incoming series in UN-NUMBERED stock available for overprinting" (Over-printing - or third printing is the serial numbering of the notes).

A detail study of the PLATE RECORDS in the Bureau indicate that SIMULTANEOUS face (2nd) printing for DIFFERENT SERIES actually occurred. Specifically, face printing of both Series 1928 and 1928A was simultaneously done. PRIOR to retirement of the 1928 plates - Series 1928B plates were put to press. PRIOR to retirement of the 1928A plates - Series 1928C, 1928D and 1928E face plates were put in use. Therefore - it is possible to have practically every conceivable combination - both forward and inverse - CONSECUTIVE NUMBER PAIRS of these series. Both 28/28A and 28A/28 are known. Both 28A/28B and 28B/28A are known. 28B/28C and 28B/28D are known - and I suspect (though unreported) somewhere - someone is quietly sitting (perhaps unaware) on a pair of 28B/28E. 28D/28C is known - I suspect 28C/28D and 28D/28E exist. 28D/28E is known - I suspect 28B/28E and 28C/28E exist.

This oddity is not limited to the \$1.00 silver certificates consecutive number pair exist in \$2.00 and \$5.00 legal tender, in
\$5.00 and \$10.00 silver certificates, and in \$5.00, \$10.00 and \$20.00
Federal Reserve Notes - basically in the 1928 series for the \$1.00
and through the 1934D series for the higher denominations.

While most changeovers are quite scarce - some even being rare or unique (only one pair known) - there are sufficient pairs existing for the average collector to own a pair. Not infrequently - one or more pair will appear in the auction catalogs of the larger dealers and in all fairness - generally estimated at much greater price than they bring. This may be partly due to the general lack of interest among collectors for this particular thing - or it may indicate a larger supply than we imagine.

Continued on next page.

### CHANGEOVER PAIRS (Contd.):

I know personally that the late Charlie Dockus of Philadelphia was AWARE of this - and with excellent bank contacts - accumulated a great many of the \$5.00 and \$10.00 Federal pairs. For several years I know that he sold the fives for \$15.00 and the tens for \$25.00 per pair. I bought a number of pairs from him and resold them about \$5.00 per pair profit. As late as 1970, Lou Werner was advertising New York Fed \$5.00 pairs - mostly of the 34A/34B series. Philadelphia and New York seem to be the most available of the change-over Federals. Without doubt Mr. Dockus would have tried to obtain pairs from other Federal Reserve Districts - then again he may well have kept his "secret" so well that there is a dearth of notes from other districts.

Not so well publicized in the changeover group is the \$1.00 silver certificate Series 1935D wide and narrow backs. Here again simultaneous printing occurred so it is reasonable to believe that every conceivable BLOCK letter combination of the wide and narrow were printed. During silver certificate redemption I had the opportunity to examine packs, and packs, and packs, and packs, of the certificate sturned in for redemption. I was able to salvage in crisp condition practically every BLOCK of the 1935D in consecutive numbered wide and narrow pairs. I informed many other collectors and dealers and I know that many of them searched the 1935D packs and pulled such pairs often as many as eight pairs in a single pack.

It is certainly true that the supply of the unusual pairs will diminish - so if this little article has sparked your appetite to own a pair while they are still available at a fairly nominal price - better write your favorite dealer pretty soon!

## THE SERIAL NOS. CLUB

Here, not necessarily in order of importance, are several items brought forth by PMCM members:

- 1. Some collectors have both circulated and uncirculated notes in their collections. Write individuals when in doubt.
- 2. To join the no-dues Serial Nos. Club, send your name, address, PMCM Nos. and Nos. you collect to me (Harry M. Coleman). Complaints, questions about The Rag Picker, etc. should be sent to Ralph Werve, Box 951, Saginaw, Mich. 48606. He is the Editor and Head Man. I'm just the janitor!
- 3. xxxs before Nos. mean any preceding Nos. are O.K. 000s before a No. means that only the End No. is wanted with No preceding Nos.
- 4. To bring the roster of Serial Nos. members up-to-date, here are six(6) new names and 39 current members, for a total of 45.(If there are more than 45 that follow, thank The Editor for adding. If there are less than 45, which is what I have as of 2-5-72, you know what you can do!!

Listed above are the notes I need to complete my collection of Federal Reserve Notes by beginning zeros. Please note that the number of beginning zeros must match exactly. I will buy or trade for any of the notes listed above. I have many notes in all series to trade, some with as many as 5 beginning zeros. In many cases I can replace your note with the identical block but with a different number of zeros up front. Let me know what you have and what you want. All letters will be answered. Your want list is welcamed. I also collect notes with ending number 711; any help here will also be appreciated. Do you have a special ending number I can help you with? PMCM 1040 Many thanks to all the members Rev. William E. Herbst who have helped me in the past,
